

SADYA HOSSAIN SINTHI

Toronto, ON | sadyasinthi1@gmail.com | 647-656-2024 | www.sadyasinthi.com

PROFILE

Impact-driven data analyst and software engineering professional with experience across data analytics, machine learning, full-stack development, database management and QA/testing support. Strong ability to translate technical work into practical, user-focused solutions.

TECHNICAL SKILLS

Programming: C#, JavaScript, Java, CSS, HTML, SQL, Python

Front-end: React, Angular, Bootstrap, TypeScript

Back-end: Node.js, Express.js, Java, Spring Boot, ASP.NET Core, Flask

Databases: MongoDB, MySQL, Oracle, SQL Server, Firebase

Data / ML: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Power BI, Tableau, Plotly

Tools / Cloud: Git, GitHub, Jira, Postman, Selenium, AWS, Azure, Google Cloud, Render, Vercel

EDUCATION

Software Engineering Technology - Advanced Diploma

Centennial College, Toronto, ON | Jan 2023 - Present

Certificate - French Language Studies

Alliance Française de Dhaka, Bangladesh | May 2018 - May 2021

Master of Business Administration

University of Dhaka, Bangladesh | Jun 2012 - Jun 2014

BSc - Electronics & Telecommunications Engineering

East West University, Bangladesh | May 2008 - Apr 2012

SELECTED PROJECTS

SadyaAI

Technologies: Node.js, Next.js, MongoDB, Clerk, Vercel, DeepSeek API, Svox Webhooks, TailwindCSS

- Developed and deployed a full-stack AI-powered chatbot application with advanced API integration.

Imagify - AI Text-to-Image SaaS

Technologies: MERN Stack, ClipDrop API, Render, Stripe

- Built a text-to-image generator with a credit-based user flow and secure payments.

Rendezvous - Video Calling with Screen Sharing

Technologies: MongoDB, Express, React, Socket.io, Material UI, Axios, Bcrypt, Render

- Developed a real-time communication application with video calling and screen sharing.

Breast Cancer Prediction System

Technologies: Python, PyTorch, Flask, Scikit-learn, Power BI

- Created a binary-classification neural network and a web interface for diagnostic-feature input and risk assessment.

EXPERIENCE HIGHLIGHTS

Data Analyst | EDSD, Ontario Public Service | Apr 2026 - Aug 2026

- Advanced metadata automation and site-attribute alignment to the common data model for Location360.

Data Scientist (Co-op) | EDSB, Ontario Public Service | Sep 2025 - Apr 2026

- Developed SharePoint SPFx analytics solutions with GA4, supported M365 testing, and contributed to data-product and analytics initiatives.

Software Engineering Research Assistant | Healthcare Systems R&A; | May 2025 - Jul 2025

- Supported machine learning, patient-data analysis, front-end development and research documentation.

QA Analyst | Visfuture Inc. | Sep 2022 - Feb 2023

- Performed software QA checks, identified defects and supported developers with quality improvements.
